

Continuing Professional Development

2010

Objectives

Continuing professional development is a platform where members of professional associations maintain, improve and enhance their knowledge, skills and ethics. 2010 will be Vista Clinic's 13th year of presenting our CPD programme.

Audience

Psychiatrists, General practitioners, Psychologists (all categories), Psychometrists (Supervised and Independent Practice), Social workers, Occupational therapists, Psychiatric nurses and other professionals in the psychiatric profession including counsellors, students and the academia.

Hierarchy of learning

All seminars for 2010 for both the HPCSA and SACSSP fall within Level 1. These are "small group discussion" activities that do not have clearly measurable outcomes and are presented on a once-off, non-continuous basis.

Continuing Education Units [CEUs]

All the seminars for 2010 are registered with both HPCSA and SACSSP CPD Accreditors. One CEU will be awarded for each hour of attendance.
